

TS-PREMIUM

The TS-Premium cable is the passive variant of the GTS-System.

Like the Quattro Reference cable, the TS-Premium has the patented center-stabilizer.

The TS-Premium cable moreover is not only equipped with a shielding-mesh against HF-radiation, the characteristic of this complex High End cable is its unique magnetic shielding.

This makes an effect, because every live conductor causes a magnetic field around itself. This field interacts with other magnetic fields like e.g. other conductors, metal boxes, grids and even with the earths magnetic field.

So this genius construction lets the electrons flow with less loss and brings body and calm to the sound.

TS-PREMIUM Speakercable

with crimpusks
with 4/8 pieces GHT-Bananaplugs
with 2/4 pieces Neutrik Speakon 4
with 4/8 pieces GHT-Spades

Standard lengths: 0,6m; 1,0m; 1,5m; 2,0m; 2,5m;
3,0m; 3,5m; 4,0m; 4,5m; 5,0m

TS-PREMIUM Interconnects

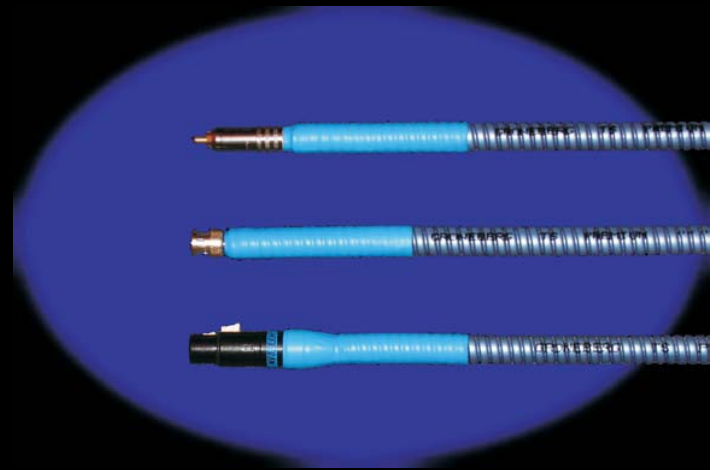

with WBT 101_{plus} RCA-Connectors
with Bullet Plug RCA-Connectors
with Neutrik XLR-Connectors

Standard lengths: 0,5m; 0,8m; 1,0m; 1,5m; 2,0m;
2,5m; 3,0m; 3,5m; 4,0m; 4,5m; 5,0m

***TS-PREMIUM* Digitalcables**

with WBT 101_{plus} RCA-Connectors
with BNC-Connectors
with Neutrik XLR-Connectors

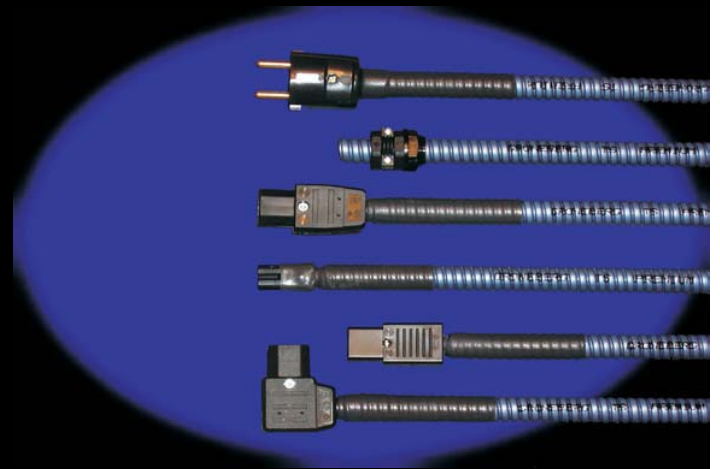

Standard lengths: 0,5m; 0,8m; 1,0m; 1,5m; 2,0m

***TS-PREMIUM* Powercables**

for equipment-installation
with straight female IEC 320 connector
with Euro-Connector
with Siemens-Connector (e.g. Revox)
with angled female IEC 320 connector

Standard lengths: 1,0m; 1,5m; 2,0m; 2,5m

Metal Power Strips with *TS-PREMIUM* Power Cable

7-fold with 2,5m and phasecheck
10-fold with 2,5m and phasecheck

***TS-PREMIUM* Center**

with 5, 7 or 9 outlets
(On request up to 17 outlets are possible)
plus1 - An additional socket in the box
plus7 - 7-fold Metal Power Strip
instead of one connector
plus10 - 10-fMetal Power Strip
instead of one connector
