

PRO 3000 MKII SERIES DIGITAL UHF TRUE DIVERSITY DUET MICROPHONES

PRO3000 MKII H.....Handheld
(Dual)

PRO3000 MKII L.....Lapel (Dual)

PRO3000 MKII HL...Handheld +
Lapel

The PRO3000 system is a powerful UHF wireless system that delivers superior audio transmission, incorporating PLL technology for flawless RF performance. With clarity and definition. You can feel the quality before you even turn the power on, The handheld and lapel microphones are perfectly weighted and the handheld is very comfortable to hold, and with its rubberised coating it has minimal handling noise. The 19" rackable receiver is of metal construction with a dual backlit LCD display, ratchet volume controls, and balanced XLR outputs it has the quality of a much higher priced system. The unit is easy to navigate with its LCD display and menus, furthermore you have can lock the parameters required to avoid mishaps.

You can save a lot of bucks by purchasing the CH3000 recharger (which recharges 2 Handheld mics) A great option is NANO3HS Headset which virtually cannot be seen. You can also opt for the subminiature high quality Nano2L lapel mic with a slightly additional cost for a great sounding capsule. The entire set comes in a protective padded plastic flight case with good padding ensuring safety and at a price which is one sixth of similar mics. To top it warranty of one year is offered.
