

PRO 500 Professional 64 Channel UHF PLL Digital Wireless System

PRO 500 H.....Handheld

PRO 500 L.....Lapel

PRO 500 HS..Headset

PRO500 Series is a very versatile and high quality UHF wireless microphone, incorporating PLL technology for flawless RF performance. The unit with its 64 scannable frequencies makes sure, that there is no interference.

The series can be offered in 4 separate sets of 64 frequencies in each set making a total of over amazing 256 choices, enabling you to use upto 120 mics at one time in one area. The unit is easy to navigate with its LCD display and menus, furthermore you have can lock the parameters required to avoid mishaps.

The very high quality capsule gives you very crisp and clean reproduction on the handheld. PRO500 Series has a great operating distance of over 400 feet without any interference, the handheld mic comes in a highly polished aluminum casing and can take a lot of road rage. Further the LCD display on both the transmitter and receiver is a great help.

You can save a lot of bucks by purchasing the Ch3000 recharger (which recharges 2 Handheld mics) A great option is NANO3HS Headset which virtually cannot be seen. You can also opt for the subminiature high quality Nano2L lapel mic with a slightly additional cost for a great sounding capsule. The entire set comes in a protective plastic flight case with good padding ensuring safety and at a price which is one sixth of similar mics. To top it warranty of one year is offered. Make sure the PRO 500 the wireless choice for your needs and you will sleep better knowing your selection was correct
