

PVD58 Series VHF True Diversity Wireless System

PVD 58 HHandheld

PVD 58 LLapel

PVD 58 HSHeadset

A great solution is neatly thought out keeping the value for money target in sight. The PVD58 series with SMD Circuit ensures flawless RF performance. The Line/ Mic selection coupled with XLR balanced output ensures reliability and flexibility. The high quality capsule gives you very crisp and clean reproduction on the handheld. PVD58 Series with True A&B circuit gets you a great distance of over 250 feet without any dropouts. A great option is NANO3HS Headset which is so tiny that it is virtually not seen. You can also opt for the subminiature high quality NANO2L Lapel mic at a slightly additional cost for a superior sound. The entire set comes in a padded protective plastic flight case ensuring safety. Make the PVD 58 the wireless choice for your needs and you will have a great peace of mind.
