

Following the Award winning RTX DLP™- based rear projection display, SIM2 introduced two new DLP™ displays into the successful DOMINO range capturing the essence of RTX but extending the concept to bring you two exciting feature-packed products.

If you're a film fan, sports enthusiast, games console addict, want to surf the Net or simply watch the Soaps, the new DOMINO 45 and DOMINO 55 will display these in glorious colour and definition thanks to SIM2's unique light engine and DLP™ technology from Texas Instruments.

DOMINO 45 & 55

DOMINO
by SIM2
