

VELODYNE:

DIGITAL AUDIO 1812

When Velodyne announces a new subwoofer, the earth trembles ? literally." Stereophile's Guide to Home Theater.

Velodyne's flagship product, the Digital Drive 1812 Signature Edition, is the industry's first two-way, all digital, High Gain Servo controlled subwoofer. It is the most powerful subwoofer ever built. With the Signature 1812 you recreate the power and force of bass you feel in your stomach along with the speed and tightness you get from the snap of a kick drum. This benchmark in subwoofer technology is also the first to incorporate Velodyne's patent pending Digital Drive room analysis and correction system.

Features

12" (9.7" piston diameter) woofer to reproduce the upper bass frequencies

18" (15.2" piston diameter) driver to recreate the lowest frequencies

2500 watts (1250 x 2) RMS

6000 watts (3000 x 2) of dynamic power

On-board digital room equalization package with 8 bands of digital parametric and on-board signal generation for audio and video display

3" Dual Tandem Voice Coils and carbon-fiber cones.
